MEMORANDUM FOR OR/CC
ATTN: Colonel Steven Senderling, CAP

FROM: HQ CAP/DO

SUBJECT: CAPR 60-3 Waiver Approval

1. Per your request, the attached waiver to CAPR 60-3 is approved with the following stipulations:

a. Oregon Wing is authorized to use the WMU to maintain and reflect currency of emergency services qualifications in lieu of the CAPF 101, but with the following provisions. Once WMU data is transferred to FMS and validated, the FMS database will become the source database for member records. Official status of ES qualification and associated currency will be in accordance with the enterprise main database. We understand from Pete Andersen that he intends to modify WMU to download/synchronize enterprise database data for ES and pilot information just as he currently does for other member data. That procedure would make data in WMU an acceptable alternate source. If that modification does not happen or WMU maintenance ceases to exist, the enterprise database will remain the source for obtaining current information on aircrew qualifications.

b. Though you can currently issue CAPF 101 cards from the WMU, when this feature is made available in the FMS, your members should also be allowed to utilize the cards issued via the FMS. We do not want your members to be prohibited from using functions in the FMS as they are released.

2. CAP/MS has developed several reports for FMS, and is preparing more to be released in the future. Please let our development staff know what reports you need, or changes that you need to current reports. Our FMS development staff is here to help you. They can be reached at fms@capnhq.gov.

3. Please give John Desmarais a call if you have any questions. He can be reached at (334) 953-4228 or jdesmarais@capnhq.gov. Thanks.
